Governor Newsom Statement on PG&E Bankruptcy Filing

Published: Jan 29, 2019

SACRAMENTO — Governor Gavin Newsom issued the following statement after the Pacific Gas and Electric Company (PG&E) filed for reorganization in federal bankruptcy court:

“PG&E today filed for reorganization in federal bankruptcy court. That was PG&E’s choice but it does not change my focus, which remains protecting the best interests of the people of California. My administration will continue working to ensure that Californians have access to safe, reliable and affordable service, that victims and employees are treated fairly, and that California continues to make forward progress on our climate change goals.”
